

**「Your expert for
play equipment**

We make children's eyes light up」

” Working for children
means to take on
maximum responsibility.“

Tilo Eichinger
CEO / owner

eibe

Commitment

We have committed ourselves to mindfulness: to the careful use of the resources of our earth. And to the benefit of future generations.

eibe

Welcome to the largest manufacturer of
playground equipment in Germany

10 reasons for eibe...

Starting as a small carpentry business in the 15th century, eibe is today an internationally successful family-owned company. The main manufacturing site is located in Röttingen. The manufacturing base there is one of the most modern development and production facilities for playground equipment in Germany. Here we produce – exclusively for you – eibe ORIGINALS. In doing so, we consistently follow our goal: Creating playground equipment that encourages children, challenges teenagers, accompanies adults and seniors and provides great fun in movement.

Today eibe - with Tilo Eichinger as CEO and owner – has established itself as one of the leading manufacturers of playground equipment, with around 300 employees who are responsible for the development, production and sale of eibe's high-quality products all around the world.

The company site covers an area of 52.543 m².

Play values

For us at eibe, play value is the central criterion at the heart of our corporate philosophy. Because we are only satisfied if every single aspect, every requirement of our play equipment is fulfilled in the sense of real value: When eibe play worlds are valuable at all levels, we have achieved our goal.

All these aspects are encouraged when playing with eibe play worlds:

- Fitness and fun in movement
- Social skills
- Creativity und imagination
- Motor skills
- Promoting all senses
- Knowledge and spatial sense
- Fun in experimenting
- Exploring elements
- Relaxation and sense of order
- Basics of living together

eibe
Commitment
 Highest play value, that is our claim! eibe play worlds are valuable and sophisticated on all levels.

Innovation

Functionality and design – an unbeatable combination that guarantees enthusiasm!

eibe creates imaginative and functional play worlds with concept-strong play systems, which fascinate experts, responsible persons and children alike. Particular importance is attached to a pedagogically valuable approach: Thanks to sophisticated concepts, the development of the child is encouraged through play.

Functionality and design – an unbeatable combination that guarantees enthusiasm!

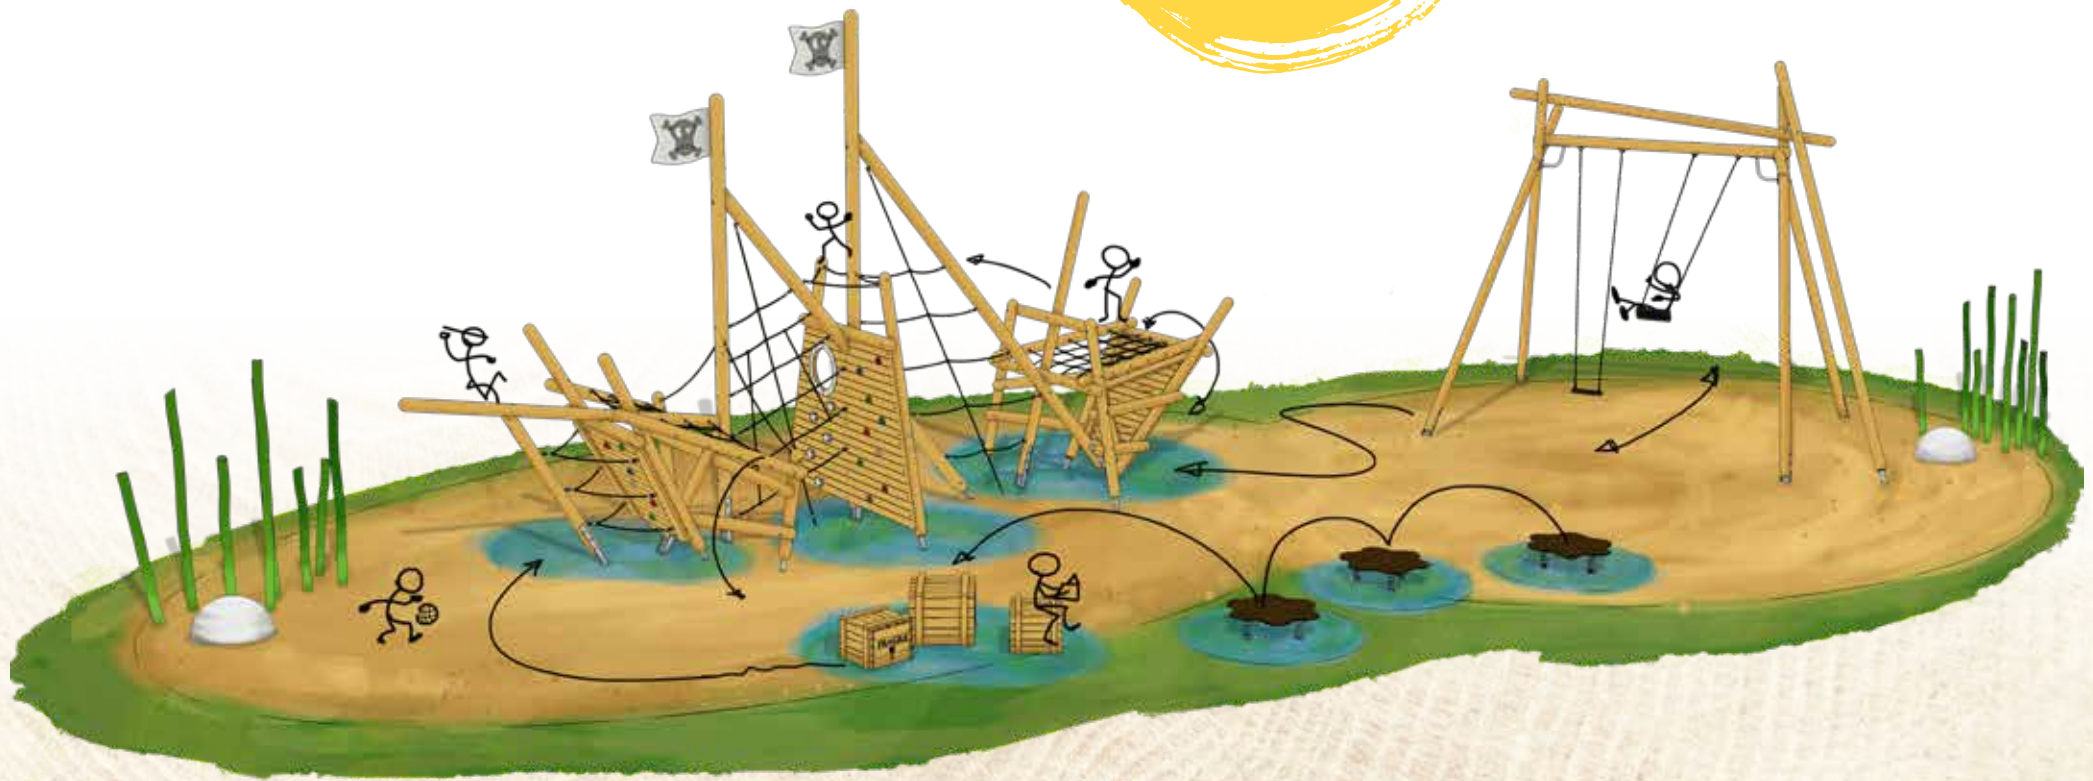

eibe is innovative:

- International pioneer in design and product development
- Pedagogically valuable and child-friendly concepts
- Perfect mix of fun, innovation and functionality
- Imaginative concepts, perfectly tailored to the target group
- „Inspiring play worlds. Play spaces with heart!“

eibe

Commitment

Together with experts and pedagogues we are constantly developing new play ideas!

Individuality

From camping site to adventure park, from public playground to school and day care:

Thanks to our huge, combinable product range, we are guaranteed to find the perfect solution for your requirements. Of course, you can also rely on us when it comes to planning and implementing completely individual play worlds!

The right play equipment for every requirement!

Park & Zoo

Imaginative design, detailed visualization, meticulous planning and solid construction – the basis for perfect large-scale playgrounds and theme worlds with high recognition value!

Housing

eibe playground equipment for housing construction is available for every budget and at an excellent price/performance ratio – from spring rockers to large systems!

Cities & Communities

From toddlers to seniors, from sports facilities to playgrounds – everyone has fun with eibe play equipment. The high product quality for public playgrounds guarantees a long service life.

Leisure & Tourism

Attractive units with high recognition value and long retention time: extremely resilient, super-stable and durable, ideal for high utilization, perfectly suited for the hotel and hospitality industry.

Schools & Educational Institutions

Our playground concepts for children and teenagers were co-developed by educators and pedagogues – great playing pleasure meets holistic support!

Childcare

When designing playgrounds for day-care centres, kindergartens and the like, we place particular emphasis on a pedagogically valuable approach to promoting child development through play.

Environment

Sustainability, environmental protection, ecobalance – this trio promises future orientation!

eibe is a true „environmental protection pioneer“. It is important to us as a company that all products are manufactured as sustainably and environmentally friendly as possible. From wood as a raw material to the production process and catalogue printing: we work in a resource-saving manner, pay attention to fairly produced materials and attach great importance to the highest level of transparency in all areas.

eibe stands for sustainability.

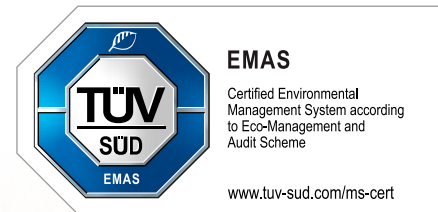

Environmental protection is deeply rooted in the corporate philosophy:

- Wood from sustainable forestry, guaranteed 100% FSC®-certified (COC)
- Exemplary environmental management and environmentally friendly products – in addition to the greatest possible avoidance of residual waste, we cover 90 % of our heating demand with residual wood, shavings and grinding dust.
- Ecologically compatible manufacturing processes and production equipment – from electric forklifts to chrome-free impregnation.

The mark of responsible forestry

FSC: The FSC trademarks on wood and wood products stand for transparency and credibility. They guarantee fair and responsible treatment of people and the environment.

EMAS: EMAS is a voluntary instrument of the European Union. It advises and accompanies businesses and organisations of every size and branch to continuously improve their environmental performance.

UMWELTPAKT BAYERN: The Bavarian Environmental Pact is an agreement between the Bavarian government and the Bavarian industry. Voluntariness, acceptance of environmental responsibility and cooperative action are parts of the basic principles. Currently over 2600 businesses are involved in the Bavarian Environmental Pact for sustainable economic activity.

Safety

Experience safety while playing: Resilient, durable, reliable, tested – eibe is the ideal partner when it comes to safety. It is not for nothing that our products are produced in Germany and put through their paces before they are released for use.

Our products are certified and therefore meet all necessary EU standards. We are happy to meet this challenge. After all, the safety of our children is also in our hands.

eibe stands for safety:

- Sales consultant, planner, product manager, designer, production staff, assembler and quality inspector- the training as a „qualified playground inspector“ is standard in key positions with us.
- Regular certification according to ISO 14001 and ISO 9001 as well as standardised test procedures
- eibe not only ensures that children play safely, but also offers operators lasting legal security with its premium service.

Standard-compliant labelling

Only the highest quality materials in combination with sophisticated construction can withstand these usage loads.

According to DIN EN 1176-1, a safety factor of 1.35 is mathematically required, in practical proof a factor of 2.

For the load on the suspension bridge, the standard accordingly demands 730.1 kg, we load in the test with 882.0 kg!

Safe playgrounds according to DIN EN 1176 and sports facilities according to DIN EN 16630

Andreas Strupp

Dipl. Ing. (FH) Graduate engineer for wood technology
German standards committee for playground equipment

Quality

The basis? Commitment to the highest quality. This is guaranteed.

Quality counts. Both in design and in production and planning: the best is just about good enough. Carefully harvested raw materials, state-of-the-art technology, high educational standards, well thought-out concepts – this is the basis of our corporate philosophy. After all, we want the children of this world to be able to play in peace and security. And that can only be achieved if we all give our best.

eibe guarantees quality:

- Best quality from the raw timber to the final acceptance
- Fine-year grown wood, dry, matured and from European stocks
- Constructive wood preservation through material-specific processing increases the service life and fun with the play equipment.
- Excellent price/performance ratio
- Splinter- and core free processing and finished with a surface-ground
- For these reasons we promise a long-term product warranty.

eibe - genuine high-quality!

Our most important material is carefully checked and of course meets the strictest standards and requirements.

eibe - always at the highest level!

Our state-of-the-art production facilities guarantee highest quality and safety.

eibe - perfectly processed - guaranteed!

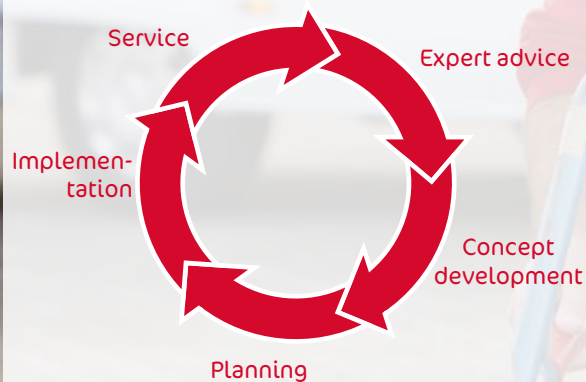

With our products, we pay particular attention to ensuring that every little detail is harmonious - e.g. surfaces with which children's hands come into contact!

Full Service

Always perfect: from planning to installation – creative complete concepts from specialists.

Anyone planning a play world is serious about it. Because the requirements are high. The modules should be durable, exciting and challenging, safe and ecological. If special target groups have to be served or special requirements have to be met, it's best to talk to eibe. We offer unique full service: from A to Z, internationally and with globally active consultants directly on site!

Building on and with experience!

eibe offers full service:

- All around expert and personal advice
- Individual and creative concept development
- Well thought-out playground planning according to international guidelines
- Professional project management and on-schedule implementation
- User friendly, detailed and illustrated assembly instructions
- Assembly support by local eibe partners
- Long-term product warranty
- Fast and uncomplicated spare parts service

eibe in every detail!

Our specialists design tailor-made play worlds that more than meet the highest requirements - thanks to meticulous planning, detailed visualization and perfect implementation!

eibe
Commitment

Our service:
always individual
and competent!

Reliability

You can rely on this with eibe one hundred percent: **From planning, delivery and assembly to inspection - we work absolutely reliable!**

We make sure that playgrounds are exactly tailored to the needs of our customers and plan meticulously down to the smallest detail. Punctuality is as important to us as the careful assembly of playground equipment. When it comes to play equipment and playground facilities, we are the partner you can trust.

We are here for you. Anytime!

That makes us reliable:

- For decades we have been happy to be personally on site for you.
- Careful project management and proactive communication
- Spare parts service and complaints processing is a matter of course for us
- We implement the wishes of our customers conscientiously and within the budget.
- Defined and regularly certified quality standards according to ISO 9001

eibe

Commitment

You can
(absolutely)
rely on eibe at
all times.

When it comes to play equipment and playground facilities, we are your reliable partner.

Holistic approach

Holistic concepts for great playing pleasure - developed and recommended by educators and teachers:

eibe would like to give children all the time in the world: to marvel, discover and play. We see our playgrounds as a holistic living space, where children are comprehensively encouraged in a stimulating environment. To achieve this, we constantly update our knowledge with the latest findings from development and play research.

The big picture always in view.

eibe

Commitment

We are nonstop committed to making playgrounds more stimulating, more active, more fun and even safer.

Our declared goal: imaginative play worlds of the highest quality that inspire children and provide added educational value. In order to achieve this goal, we look beyond our own horizons and work closely together with renowned experts from all cross-sector areas:

- Educators
- Parents and teachers
- Testing institutes
- Architects
- Universities, science
- Supporters
